

SAFETY RULES FOR PROPER USE OF INFLATABLE EQUIPMENT

Party Kings Co. wants you and your guests to have a good time. To achieve this it is imperative to maintain a high level of safety by following the safety rules set out below:

Use of this equipment is not allowed by anyone with the following conditions: Current or previous injury to the back or neck, pregnancy, any respiratory conditions including but not limited to, asthma or bronchitis, chronic knee or other joint conditions, any heart or circulatory conditions, or unfit through excess alcohol or drugs. Please remember that use of this equipment does require a certain amount of physical exertion, and anyone should judge for themselves their ability to participate.

- 1. A responsible adult (18yrs minimum) must supervise the use of the equipment at all times and be prepared to take appropriate action at the first signs of misbehavior or misuse of the equipment.**
- 2. The supervisor/supervisors of the equipment must read and sign the Safety Rules and Supervisor Agreement document & must be at the event early to receive briefing from Party Kings Co. staff member.**
- 3. Shoes must be removed, along with any sharp or dangerous objects (e.g. jewelry, watches, badges, brooches, large hair clips etc.). Eye glasses are to be removed.**
- 4. For sanitary reasons, socks must be worn at all times.**
- 5. Strictly follow the minimum/maximum height restrictions in order to avoid injury. No adults should ever use the inflatable equipment unless it is suitable for their weight/height.**
- 6. There should be separate bouncing sessions for children/people of different ages, size and ability.**
- 7. Do not overcrowd the inflatable equipment. Strictly follow the max capacity restrictions in order to avoid injury.**
- 8. Nobody must be allowed to climb or hang on the walls of the inflatable equipment. Children must not throw their bodies onto the inside or outside walls of the equipment. The walls are not to be used as springboards, they are designed for a protective barrier for those jumping on the jump floor.**
- 9. No toys, food, gum, candy, liquids or cigarettes are to be taken onto the inflatable equipment. Silly string or party poppers are not to be sprayed or popped inside the inflatable equipment along with any type of confetti, glitter, or sand.**
- 10. The inflatable equipment will become very slippery if wet. If possible it should be thoroughly dried before recommencing play. No spraying water in inflatable equipment. (Unless it's a waterslide).**
- 11. Keep the entrance to the inflatable equipment clear and do not allow bouncing on the front safety step/passage way.**
- 12. Exit equipment properly. Users should not jump out of the inflatable equipment. Rather they should stop, sit on front step and step away from the equipment. This will reduce the risk of potential injuries.**

13. No smoking, fires, tiki torches, candles or any other open flame as well as heaters to be used near the inflatable equipment.
14. No pets on or in the inflatable equipment.
15. Please make the users aware of the tiedown/anchor points and make the area behind the equipment, where the electric blowers are, out of bounds.
16. Do not allow children to push, collide, fight, or behave in a manner likely to injure or cause distress to others. Somersaults and back or front flips are not allowed as they can be extremely dangerous with the possibility of serious back or neck injury.
17. When using boxing ring, do not pair two players or extremely different height/weight/age. Ensure that the head gear and gloves are properly in use. Head shots are NOT permitted.
18. Ensure only one child climbs the ladder at a time.
19. When using the slide (dry or wet), ensure only one child slides at a time and the bottom is clear between each slider. Sliding should be feet first only (not head first); No jumping down the slide and make sure children slide sitting– No standing.
20. Do not relocate the inflatable. Do not pull up the stakes or relocate the blower.
21. When not supervised, deflate the inflatable.
22. Keep persons off of the inflatable when inflating/ deflating to prevent the risk of injury and to protect the bouncer from damage.
23. Should the inflatable start to deflate for any reason, evacuate the unit carefully and slowly. The inflatable is designed to deflate slowly to enable people to exit before completely deflated. After everyone is out, then check the potential causes of deflation including: Air port, power, air blower, possible damage.

I, _____ (print name) have read and understand the above safety rules and agree to take full responsibility for the monitoring and use of the inflatable equipment under my supervision.

BY SIGNING THIS DOCUMENT BELOW, I AGREE TO DO THE FOLLOWING:

- Treat each person with respect and care while instructing them in proper use of the equipment
- Monitor the removal of shoes and ensure users have socks on before use
- Monitor the behavior of the persons inside of the unit and correct or prevent unsafe behavior
- Only allow users of similar size to enter the inflatable together
- Keep the capacity at or under the max capacity limit at all times
- Time each group of users for set time amount
- Coordinate users exiting inflatable and new groups entering
- Never leave inflatable unattended
- Look for potential hazards and respond appropriately
- Immediately evacuate and deflate the inflatable if there is any concerning strong wind gusts
